

#APAC2019

WELCOME to the 5th International Coaching Conference, APAC2019

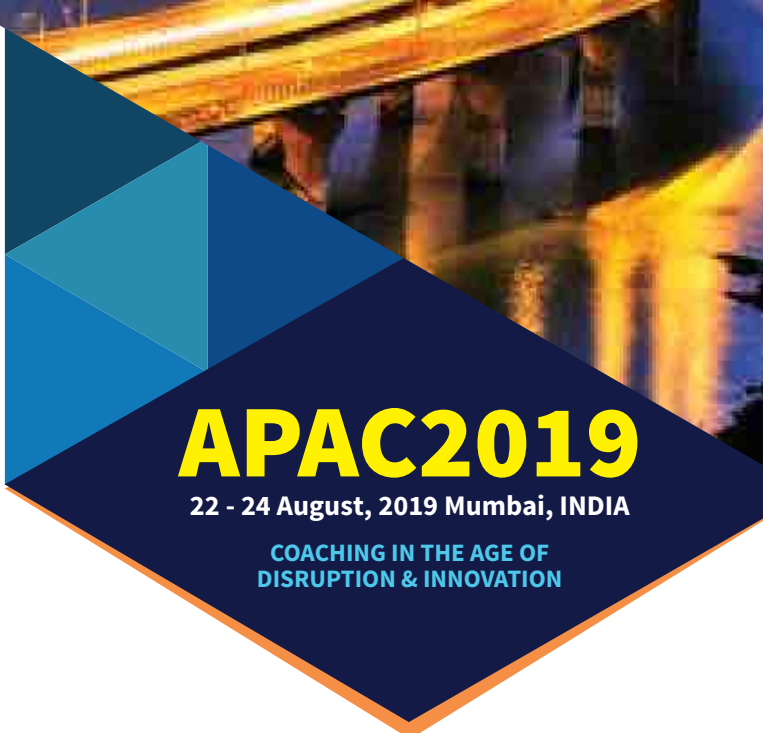

FOCUS OF THE CONFERENCE

On the business front a deluge of information, radical changes in the power of AI and disruptive technologies like Machine Learning alter business and social paradigms at lightning speed. We are already into a new age of services. A new age where the current trend of automation and data exchange in manufacturing technologies that includes cyber-physical systems, the internet of things, cloud computing and cognitive computing. This gives rise to Industry 4.0 which is the fourth industrial revolution. In the social arena leaders are faced with heightened expectations of citizens, ecological disruptions and social resurgence. National leaders are attempting to implement new projects and bring about transformation in cities and governance processes. Behaviour change by building social awareness in citizens is being attempted. Achieving this change is the only option for survival and growth. However, the new challenges that such disruptive changes bring, cannot be met with the beliefs, mind sets and behaviours that stood for us well in the past. All these scenarios require us to become comfortable with complexity and to be innovative in our approach.

THE CONFERENCE THEME

When a challenge occurs and a solution is found, it is called problem solving. When an opportunity is spotted and exploited, it is called optimising potential. And, when a system, process, product, service offering or behaviour, that has been prevalent and going great, is challenged, broken down and changed, that is what you might call disruption, and what follows through thereafter is innovation.

Coaching proves as a valuable tool, that helps leaders counter disruption by managing these challenges and aid innovation. And paradoxically, changing technology provides coaches with ways of enhancing the effectiveness of their coaching practice. This learning is key to managing all types of business, public sector organisations and NGOs. The conference looks at how coaching can bring about change at societal levels with leaders maintaining collective and individual focus in the face of constant disruption.

APAC2019

22 - 24 August, 2019 Mumbai, INDIA

COACHING IN THE AGE OF DISRUPTION & INNOVATION

BENEFITS OF ATTENDING THE CONFERENCE

The conference provides an opportunity for coaches, business heads, L&D and HR heads from across the globe to connect, engage and share their knowledge and experiences. With a host of Indian and international speakers providing their enriching and thought provoking experiences, this is a “MUST DO” event.
